

Flange Mounted Brakes

Description

Dynacorp® flange mounted brakes satisfy a wide range of stopping requirements. The 3" and 4" brakes have an outside mounting flange, while the 5" through 10" brakes are available with an inside or outside mounting flange.

Flange Mounted Brake – Replacement Parts

The Ajusto-gap® armature feature (1-C & 3-C) can be used to give a positive release of the armature plate while maintaining a constant air gap throughout the wear life of the unit. See page H-18 for complete information.

Technical Data and Torque (In. Lb.)

Model No.	Wt. Lbs.	Static Torque in. lb.	Max. Speed RPM	Coil Voltage vdc	* Rated Current amps	RPM							
						0	300	600	900	1200	1500	1800	2400
310	26	3600	2400	90	.60	3600	3144	2616	2088	1788	1596	1416	1044

* Rated current at 90v.

Customer must maintain:

1. Concentricity between mounting flange and shaft within .010.

2. Perpendicularity between mounting surface and shaft within .010.

Refer to Section M for torque and heat dissipation curves.

Order Parts for Assembly No. FC310050 and FC310051

	Armature Hub	Armature Plate Assembly	Magnet Accessory	(2517) Taper Bushing	FC310050	FC310051	Magnet	Ajusto-gap® Accessory
					Mounting Plate with Access.			
					Inside Mounting	Outside Mounting		
24 Volts	310450	310380	326078	326039-XX	310481	310491	310373	326075
90 Volts	310450	310380	326078	326039-XX	310481	310491	310374	326075

To order, specify:

- 1, Armature Hub
- 1, Armature Plate Assembly
- 1, Magnet Accessory
- 1, Taper Bushing (2517) of required Bore size
- 1, Mounting Plate with Accessory for either Inside Mount or Outside Mount
- 1, Magnet of required Voltage
- 1, Ajusto-gap® Accessory

For controls, see Section K.

Ajusto-Gap® Armature and Hub Assembly

Used With

● 304

The Ajusto-gap® feature is used to give a positive release of the armature plate while maintaining a constant air gap throughout the wear life of the unit.

Armature Dimensions (Inches)

Part No.	AA	BB	CC	DD	EE
304396-8	-	-	-	4.00	16

Hub Dimensions (Inches)

.875 and 1.000 Bores

Item	Description	Part No.
A	Hub Assembly (Model 304)	
	7/8" Bore	304465-4
	1" Bore	304465-5
B	Armature Plate Assembly (Model 304) For Clutch Couplings and Brakes	304396-8

All the above armature plates can be used only with hubs as specified.

Terminal Insulating Kit

Used With

● 305 through 310

The terminal insulating kit is used in environments where it is either desirable or necessary to protect terminal connectors.

Model No.	Accessory Group
305 - 310	326297

Zero Air Gap Accessory Kit

Used With

- 305 through 310

The purpose of this kit is to hold the armature plate in contact with the friction face to reduce pull-in time. It is recommended where the engagement time is critical; usually high cycle rate applications with the D2950 control. Also use this kit when a slow start or stop is required with the D2750 control. Since the friction surfaces are always in contact a rubbing noise is created. The design of your machine may increase or decrease this noise.

Model No.	Accessory Group
305	326303
308 - 310	326240
